

I want to build a cubbyhouse ... but it's going to take forever! Where do I start?

Some things seem too hard to do. Some things seem like they will take too long. Why not try setting yourself an easy goal every day? When you do a little bit every day, big jobs don't look so hard after all!

1. Cut out the footprints below.
2. Glue the footprints on a long strip of coloured paper.
3. Write an easy goal for tomorrow in the first footprint.
4. When you reach your goal, colour in the footprint and write another easy goal in the next footprint for the following day.

When all of the footprints have been coloured, look back at all the things you have done and see what you have achieved!!
